Communications Rep
Dr Matt Doré

Central Rep
Dr Steph Shayler

North Rep
Dr Bev Clarke

South Rep
Dr Helen Crispin

WMCRN Clinical Rep
Dr Clare Marlow

WMCRN Research Rep
Mrs Sandra Prew

New Year Message

2016 was an incredible year for WM CARES, during which the collaborative was conceived, formed and launched. Three projects are already up and running, with each project's pilot studies or literature searches accepted for poster presentations at the forthcoming APM Supportive and Palliative Care (ASP) conference. This couldn't have been done without the wealth of support and encouragement we have received while setting up our venture - thank you.

The WM CARES Committee are excited to continue moving the baton forward with you all in 2017, as the real work starts.

WM CARES Networking

We are in discussion with Health Education West Midlands (HEWM) about how they may be able to support WM CARES.

The Royal Wolverhampton NHS Trust are starting a Research and Innovation agenda to try and help support research locally. WM CARES will be involved as this agenda develops. This will be a great advantage to us as all WM Palliative Medicine trainees are employed by the Trust.

WM CARES needs you!

With three projects already up and running we are beginning to look at our next research projects.

If you have any thoughts regarding potential research ideas then please get in touch.
